BACKGROUND AND LEGISLATION

BACKGROUND

High quality services with qualified, skilled and supported educators have a long-term positive impact on the trajectory of children’s lives. Minimum qualification requirements are specified in legislation for all educators working in early childhood education and care services. Eligibility for services to receive funding also includes requirements for staff to hold specific qualifications (*The Kindergarten Funding Guide – refer to Sources*).

A current list of approved qualifications is available on the Australian Children’s Education and Care Quality Authority (ACECQA) website (*refer to Sources*). Applications can also be made to ACECQA to determine if other qualifications (such as those gained overseas) entitle the individual to work as an early childhood teacher, diploma-level educator or certificate III level educator.

In addition, there are legislative requirements that there is at least one educator who holds current approved first aid qualifications, anaphylaxis management training and emergency asthma management training to be in attendance and immediately available at all times that children are being educated and cared for by the service. These qualifications must be updated as required, and a copy of the qualifications must be kept on an individual’s staff record. As a demonstration of duty of care and best practice, ELAA recommends all educators have current approved first aid qualifications, anaphylaxis management training and emergency asthma management training.

Opportunities for professional development are crucial for all educators to ensure that their work practice remains current and aligned to the practices and principles of the national *Early Years Learning Framework* (EYLF) and the *Victorian Early Years Learning and Development Framework* (VEYLDF) (*refer to Sources*).

Staff are required to actively supervise children at all times when children are in attendance at the service (*refer to Supervision of Children Policy*). To facilitate this, services are required to comply with legislated educator-to-child ratios at all times, which are based on the qualifications of the

educators, and the ages and number of children at the service. Only those educators working directly with children (*refer to Definitions*) can be counted in the ratio.

All educators and staff are required by law to have a current WWC Clearance or be registered with the VIT (*refer to Definitions*). It is also recommended that the nominated supervisor and staff with financial responsibilities also have a criminal history record check (*refer to Definitions and Sources*).

Child Safe Standard 6 requires organisations to have policies and procedures in place for the recruitment and pre-employment screening, supervision, appropriate induction, and ongoing supervision and people management is focused on child safety and wellbeing (*refer to Child Safe Environment and Wellbeing Policy*).

LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:
